Some are walking,

Some are riding,

Here they come

And some are flying

Some just gliding

Released after years of being kept in hiding

They're climbing up the ladder rung by rung

Some with questions

Some decisions

Some with facts

And some with visions

Of a place to multiply without the use of divisions

To win a prize that no one's ever won

Some are laughing, some are crying

And some are doing, some are trying

Some are selling, some are buying

Some are living, some are dying

But demanding recognition one by one

# Organization

Officers are elected for both first and second year students and all students who wish to may join the Parkland College Nursing Students Association. At present, there are 60 students in the nursing program, and 53 are members of the association. Officers of this association are: Betsy Warren, Pres.; Kathy Brown, Veep.; Pam Celsey, Sec.; Leona Matheny, Treas.

One of the main projects of the association this year has been recruitment of prospective students to high-schools who have a nursing club or have asked for a speaker. The organization is trying to inform the public about Parkland's nursing program and also to establish good community relations.

Students in the nursing program take regular college courses, with slight emphasis on the biological sciences, and special-

ized nursing courses.

Two days per week are spent working in a hospital under the supervision of doctors and nurses. Carle and Mercy hospitals in Urbana, and Jarmon Hospital in Tuscola are cooperating with the Parkland program. First year students are working in maternity, dealing with delivery, post-partum recovery and the nursery. Second year students are receiving training in the emergency room intensive care unit, and as team leaders on the floor.

The program is very demanding, with many students unable to complete it. But those who do know that they are well-trained and will never be out of a job. Association President and second-year student Betsy Warren summed up her feelings about the program, "It's a difficult program, but you appreciate it being difficult because you recognize the enormity of your responsibility when you get out."

representatives to Washington, D.C. wrote letters to Congressmen, and worked closely with the American Legion lobbies in Washington, D.C. The end result, as I am sure you are now aware, was a raise in the G.I. Bill.

While attending a Saturday afternoon meeting we learned of the possibility of the military scholarship being cancelled. A Congressman in the state legislature has come up with the idea to save money. The state legislature convenes this week. The American Legion lobby in Springfield will inform the I.F.V.C. president the day it is proposed. He will then contact the various presidents of the local veteran's association.

Approximately 800 veterans are attending Parkland College. The majority of these 800 veterans are using the military scholarships which saves the veterans approximately \$1200 over a four-year period.

This is \$1200 that would normally come out of the Veteran's pocket. If you are fortunate enough to have the money we are quite sure that you could put the money to some other use.

We encourage you to be informed and concerned about this veteran's meeting on April 23, 1970. This meeting will be held from 1 to 2 p.m. in room M14.

If you are not available to attend this meeting, please contact Tom Krall at 352-4936 or David Ray at 356-5453.

**STUDENT NURSES ATTEND** class at Science Bldg. students are Phyllis Sisk, Jeannie Jenkins, Teacher, Miss J. McGrain, Leana Matheney, Kris Bradford, Loretta Leman, Marletta Melton (the vain one) and Vicki Loug (bottom).

# mental rise

Illinois April 10-11. The I.F.V.C. is a state-wide organization of veterans in college attempting to achieve goals beneficial to all veterans. The I.F.V.C. was instrumental in achieving the new raise of the G.I. Bill. They sent re-

## "Sterile Cuckoo" Sad Little Story

by TOM SUMMERS

"The Sterile Cuckoo" is a potent blend of joy and pathos; the exuberant struggle of a wonderfully alive human personality to affirm itself against the realization of

Jerry is willingly pulled into Pookie's energetic sphere during the ensuing weekends as they escape together from all the college weirdos into the beautifully filmable New England countryside. Jerry has his

Pookie Adams recently by Liza Jerry Payne (V a bland unassuming bus trip from college. Poor life he has been along in the medlocity. Un into Pookie, he kind of nice, forg heads straight into the harness merican suburbia

Pookie is one contagious individual infect the people with their own or more often the rass others by ing the lies they out social intera quick to inform world is full of unthinking, unfe who embrace con in the anonymous herd, and have no perception of their human uniqueness.

**Co-Editor  
Bill  
Messersmith**

The Sterile Cuckoo is a sad little story. One can't help but feel that it is a true story over and over again on the screen. Pookie's first disappointment at being sent to the mailman who waits hopefully and patiently to see her die is projected onto the audience. The poor chances a human personality has to attain fulfillment in a world made up of prescribed social roles.

## Protest Strong In Winter

CHICAGO--(CPS)--"Major incidents" of campus protest have occurred at the rate of one a day during the first quarter of 1970, according to the Urban Research Corporation.

Although some consider this academic year more calm than last, the statistics show that 92 campuses experienced major unrest this winter compared to 88 during the same period last year.

The portests were "notsignificantly less violent" than last year nor did they draw fewer participants, according to John Naisbitt, president of Urban Research.

He said violence occurred in 23 per cent of this year's winter's protests and 20 per cent of last year's.

The major issues have been minority recognition, quality of student life, greater student voice in decision making, and the war and military. The environment has not yet been a major source of protest.

The largest number of protests have taken place in Ohio, New York, Michigan, Massachusetts and California, with every section of the country experiencing some protest.

## Veterans Receive Boost

by Larry Snook

The Parkland veteran organizations joined with the team effort of 3.7 million veterans in support of the new GI Bill. The outcome, after six months of Senate debate, resulted in the near unanimous vote in both houses of Congress for passage of the measure.

About 200 Parkland veterans, approximately one-twelfth of Parkland's enrollment, have become eligible for increased financial assistance to further their education. On March 26 the President signed into law the substantial change to the GI Bill of Rights.

The new GI Bill raises from \$130 to \$175 the monthly allowance the Veterans Administration will pay for full-time single students enrolled at Parkland. This increase in funds is the first increase in educational allotment benefits in over 15 years. Since 1952 the monthly allowance to veterans has been \$130. Inflation, coupled with the rising cost of education, has had an adverse effect on these payments which have remained static.

## Present Grading Should Stay ---

by Lynn Spencer

On April 1, an opinion survey on the PC grading system was submitted to the faculty by Steve Fisher, chairman of the grading committee.

One of the questions subcommittee was, "Should the current quality grade point structure remain the same?" It was generally agreed that the grading point system should not be changed.

On March 12, the PC Psychology Staff published a letter to the faculty and administration entitled "How Shall We Evaluate Parkland's Grading System?"

Although the Psychology Staff suggested some changes in the overall procedure, they stated that the five point grading system should be retained. "More lenient changes, such as doing away with 'D' or 'F' grades," they said, "would be lax or pollyannish."

On March 17, Larry Bell, a PC art instructor, along with several other followers, sent an opposing letter to the faculty. Bell did not consider a grading system of 'A', 'B', and 'C' either "lax or pollyannish."

In spite of this increase in benefits, it is not anticipated that there will be a stampede on campus next fall by registering veterans. A close look at VA statistics shows that, proportionally, the number of veterans making use of the GI Bill is lower now than after WW II or Korean War. However, this increase makes it more helpful for every veteran desirous of an education to receive it regardless of financial status.

This drop in the number of veterans availing themselves of the GI Bill is due in part to employment opportunities upon discharge from the service and from a lack of understanding about the legal rights for veterans. Also student draft deferments crowd out prospective veterans as students.

One major goal of the Parkland veterans organizations is to erode the lack of understanding which exists concerning veterans benefits. For more information or assistance plan to attend a veterans meeting. April 23 the Veterans Club will hold its next scheduled meeting from 1-2 o'clock in the Methodist Church room 14. This is an active student organization which invites your support.
